LinkedIn: vivek-kumar — GitHub: vivekxsh — Portfolio: portfolio

Objective

B.Tech Computer Science graduate (2026) with strong expertise in full-stack development and Data Structures & Algorithms (300+ problems solved, top 15% on LeetCode). Experienced in building scalable web applications using React, Node.js, and Flask, with a focus on performance, usability, and real-world problem solving.

Skills

Languages: Java, JavaScript, C++, Python

Frontend: React.js, HTML, CSS, Tailwind, Bootstrap

Backend: Node.js, Express.js, Flask

Databases: MongoDB, SQL, Firebase

Core Concepts: Data Structures & Algorithms, OOP, REST APIs, JWT, Redux

Tools: Git, GitHub, Linux, VS Code

Projects

Smart Code Reviewer

GitHub

- Built a full-stack code analysis tool leveraging Gemini API to evaluate user code and generate structured feedback in Markdown format.
- Implemented real-time feedback rendering alongside the code editor, improving debugging efficiency and developer experience.
- Designed RESTful backend services for handling code input, API integration, and response processing.

Tech: React.js, Node.js, Express.js, Gemini API

Smart Medicine Prescription & Appointment System

Live — GitHub

- Developed an AI-driven healthcare platform that recommends medicines, diets, and precautions based on user symptoms.
- Integrated a doctor appointment booking system enabling seamless scheduling and improved accessibility for users.
- Implemented secure authentication and state management using JWT and Redux for scalable user sessions.

Tech: Flask, React, Node.js, MongoDB, JWT, Redux

Finan Smart – Financial Advisory App

Live — GitHub

- Built a budgeting application to analyze user income and expenses and generate personalized financial insights.
- Integrated Firebase authentication and real-time database for secure and scalable data management.

Tech: React, Node.js, Firebase

Open Source Contributions

Hacktoberfest 2025

Oct 2025 – Nov 2025

- Contributed 6 merged pull requests across 4 repositories, improving UI/UX and application functionality.
- Implemented “Back to Top” feature in a movie application, enhancing navigation experience.
- Enhanced Image-to-Text project with animated UI and improved user interaction.
- Added email functionality for prescription sharing in a healthcare system.

Achievements

- Top 15% globally on LeetCode (Rating: 1681); solved 300+ DSA problems across platforms.
- Secured 3rd place in IDEA SPARK Hackathon (ACM, Kalasalingam University).
- Ranked 8th in a university-level coding contest conducted on HackerRank.

Education

Kalasalingam Academy of Research and Education, Tamil Nadu

2022–2026

B.Tech in Computer Science Engineering — CGPA: 8.38/10

Bali Ram Bhagat College, Bihar

2019–2021

Class XII — 74%

Certifications

- **MERN Stack Development** – Apna College (Oct 2024): Built full-stack web applications using MongoDB, Express.js, React, and Node.js.
- **Database Management Systems (DBMS)** – CodeChef (Mar 2024): Covered SQL, normalization, and relational database design.
